FaceConscious, a new facial serum from Noevir, provides skin with an abundant supply of nutrients to increase moisture, improve elasticity and enhance the facial contour, according to Fumi Ozaki, project coordinator, Noevir. The unique formula creates an invisible veil on the skin's surface to firm, tighten and lift, while a unique blend of botanicals provides slimming effects from within. The formulation includes gymnema extract, used in traditional Indian medicine for thousands of years to help alleviate elevated blood sugar and encourage healing; as well as botanicals such as alpha-GG and Garcinia extract to promote immediate tightening of the facial skin.
