

# Noevir Hair Care Steps

## TIPS for Color Treated Hair:

- Immediately following hair color treatment for a week, use NHF Hair Water before shampooing. This will help extend the life of color treated hair.

## TIPS for shampooing hair:

- Always use warm water, not hot.
- Shampoo gently without any vigorous rubbing or scrubbing.
- Never brush wet hair.

## TIPS for drying hair:

- To minimize friction, use wide comb to detangle.
- Towel dry hair with gentle care; do not rub.
- Air-dry whenever possible.
- Angle dryer downward to keep the cuticle closed; use lower temperature setting.
- Never iron when hair is wet.
