

4 Simple Steps!

The Ultimate Guide to Beautiful Skin and Makeup

Cleansing

Take a cherry sized amount of Massage Gel & gently massage it onto your face without water. Rinse with lukewarm water or tissue off. Reapply another cherry size for daily massaging. Rinse thoroughly or tissue off. Next, lather your Foaming Cleanser and spread over your moistened face. Rinse thoroughly and pat dry.

Masking

Draw out imbedded impurities and gently exfoliate dead skin 2-3 times per week. Trust me, you will notice an immediate difference! Smoother, softer, radiant skin is within your reach!

Toning

The basic law of beauty requires a good Balancing Lotion. Saturate cotton pad and gently pat entire face in an upward motion.

Moisturizing

Now let's hydrate our skin with Moisturizer and Protecting Cream. Pour a teaspoonful amount of moisturizer onto your palm and gently apply. Then, lightly smooth a pea-sized amount of Skin Cream over your entire face. Don't forget to use sunscreen during the day time!

Stop traffic with this simple, flirty look!

PREP

Even out skin tone and create a blank canvas with Noevir's Two-Way Powder and Foundation in one. If there is redness or blemishes, use Concealer with applicator to complete your flawless look.

SHADE

Brush a highlighting color all over lid and brow bone, shade with medium color all over the lid creating a gradation between the two colors. For added drama, blend a dark color up from the lash line in the crease.

CONTOUR

Bring out your cheekbones with our new Cheek Color/ Blending Powder Duo. For additional emphasis, apply a bit more blush right by the star area.

SHINE

Add a pop of shine with your favorite Noevir lip gloss! Give the illusion of fuller lips, put on lip gloss only on the center part of your lips.
